### Advanced Voice Activated Control

The Master Massage Chair is tech savvy and features a user-friendly voice command function in both English and Chinese. Enhance your massage experience further by revelling in your favourite musical experience via the integrated Bluetooth synchronization. Even charge your phone or other mobile device with the built-in USB charger.

### Zero-Gravity Function

With the touch of a button, you can feel the weightless ease of zero gravity positioning which extends to a full 180-degree recline. The zero gravity function removes all the pressure from your spine and imparts the feeling of weightlessness. This experience will make you feel deeply relaxed, decompress your skeletal structure and release tension from your body.

### Airbag Pressure

The Master Massage Chair has 40 strategically located advanced airbags that will grip, twist and gently stretch your muscles. Sit back and relax as the airbags in the seat provide the perfect relief to your waist and hips.

### Versatile Massage

The Master Massage Chair includes an L-track roller system that truly feels like real human hands. You can customise your massage with any of these calming and revitalizing massage setting options.

# Built just for you.
